STATEMENT OF FACT AND POLICY

As authorized by 12 M.R.S.A. Sections 6172 and 6192, department personnel have determined that the above described area is subjected to intermittent microbiological pollution whereby clams, quahogs, oysters, mussels and other marine mollusks in these waters would pose a threat to the public health. The Commissioner adopts this emergency rule to prevent taking of all shellfish from this area in order to protect the public health.
